

# Step 6 - Event Week

Please find listed below the recommended actions that you need to take during this step of implementation:

## Chase Your Junior Monthly Participants

*All of your Junior monthly participants can attend the Junior Course Play event within their monthly subscription. Ensure you engage with them to maximize engagement in your events.*

## Organize Your Tee Times

*Once you have a list of participants, you need to organize your tee times & playing groups. Those playing from the latter teeing position will be playing up to 6 or 9 holes and therefore should tee off first.*

## Share Tee Times

*Once you have organized your tee times, communicate this to all participants with some further guidelines. Use the template Tee Time communication within the Communications section of the Training Hub.*

## Organize Reward Elements for the Award Ceremony

*Your Course Play event should include a short reward ceremony and this is an opportunity to award stickers, pins and hats to juniors. Organize the elements you need.*

## Edit and Print Scorecards

*Download from the Resources page of the Training Hub the printable scorecards. Edit these with the yardages of each of the hole from each teeing positions and print these out on card.*

## Download the Starting Tee Table

*Before assigning the starting position of each child, review the Starting Tee Table Resource from within the Course Play Resources page of the Training Hub. This will provide guidance on how to allocate each child to a starting tee that is developmentally appropriate.*

## Create Player Scorecards and Check Adapted Rules

*On the Printed scorecards, you should add the Player Name and mark the teeing position that the child should play from. On the back of the scorecard, you can check the adapted rules that apply to this player to ensure the experience is developmentally appropriate.*

## Communicate with your Club Contact

*Discuss any details with your club contacts including ensure you have access to golf course, a place to run your award ceremony and that you teeing positions are sprayed onto the cart paths.*

## Organize Spare Equipment

*You may have participants who require equipment to participate in the event. Check you have all this organised for the day of your event.*

# Step 6 - On the Day

Please find listed below the recommended actions that you need to take during this step of implementation:

## Organize Welcome Area

*Find a space that is suitable within your venue and prepare all of the information you need to welcome your participants.*

## Layout Cones for Starting Tees

*You may have the starting position on each of your holes marked on the cart path. You should also identify these by using the cones within your equipment bag.*
