Layout and Setup

Swing Games - Layout and Setup

The graphic opposite provides an example image of how we suggest you layout your class so that the learning outcomes and activities can be delivered in a safe, fun and engaging manner. We suggest running the class as follows:

- Stations 1, 2, 3 and 4 are **Game Stations**. At these stations the children play in pairs or play the games independently with supervision from the coach
- Children should rotate around the station and have approximately **5 minutes** to spend at each station. Each child should get an opportunity at each station during the class
- At the end of the session, the children can play one of the games as a group to add a social element to the class
- Safety is your top priority when running your class, please remember to;
 - Add your orange safety cones behind each station to identify to the children where they are required to stand when not hitting from within the hitting station
 - Dividers should be used to identify to hitting stations
 - Baskets should be placed to right to the side of the children and behind the hitting area
 - Children should never go in front of the hitting stations to collect a golf ball or golf club
 - Children should always exit the hitting stations from the rear by crossing the orange safety cones
 - Children should collect the golf balls in a group with all equipment left at the stations

About

The Warm Up Games are an opportunity for you to develop the child’s Physical Literacy. During these games, a focus should be made on developing key Fundamental Movement Skills (FMS) and athleticism components identified within the Physical Literacy Learning Outcome. Use the guidance below for how to play the warm up game:

How to Play

- Split the children into even groups, ideally two groups of 3
- Place the numbered cones evenly spaced approximately 10 paces from the safety cones
- On go, the the first child of each team places the foam noodle in between their feet and has to jump to where the cones are, using the noodle to know over a cone
- Once they have knocked over a cone using the foam noodle they can jump back to the safety cones and pass the noodle to the next player
- The team that wins is the one who knocks the most cones over

Progression Ideas

- If the children are struggling with the noodle in between their feet, let them pick the noodle up but they have to bunny hop to the cones and back
- Move the cones further away
- Decrease or increase the distance between the cones
