Layout and Setup

Around the Green Games - Layout and Setup

The graphic opposite provides an example image of how we suggest you layout your class so that the learning outcomes and activities can be delivered in a safe, fun and engaging manner. We suggest running the class as follows:

- Stations 1, 2, 3 and 4 are **Game Stations**. At these stations the children play in pairs or play the games independently with supervision from the coach
- Children should rotate around the station and have approximately **5-7 minutes** to spend at each station. Each child should get an opportunity at each station during the class
- At the end of the session, the children can play one of the games as a group to add a social element to the class
- Safety is your top priority when running your class, please remember to;
 - Add your orange safety cones behind each station to identify to the children where they are required to stand when not hitting from within the hitting station
 - Dividers should be used to identify to hitting stations
 - Baskets should be placed to right to the side of the children and behind the hitting area
 - Children should never go in front of the hitting stations to collect a golf ball or golf club
 - Children should always exit the hitting stations from the rear by crossing the orange safety cones
 - Children should collect the golf balls in a group with all equipment left at the stations

About

The Warm Up Games are an opportunity for you to develop the child’s Physical Literacy. During these games, a focus should be made on the developing key Fundamental Movement Skills (FMS) and athleticism components identified within the Physical Literacy Learning Outcome. Use the guidance below for how the warm up game should be laid out and played:

How to Play

Each child has a golf ball that they place at their feet. The coach calls out a number between 1 and 5. If the coach calls “1” the juniors have to place their hands on their head. If “2” is called, the juniors have to place their hands on their shoulders, “3” is knees, “4” is feet and if the coach calls “5” the children need to pick up the ball and jump into the air.

The coach should call slowly at first, then faster and faster before finishing the round by calling “5”.

The winner is the first child to pick up their ball and jump into the air!

Progression Ideas

- Allow the children to call the numbers
- Add in additional actions with more numbers
