Layout and Setup

Swing Games - Layout and Setup

The graphic opposite provides an example image of how we suggest you layout your class so that the learning outcomes and activities can be delivered in a safe, fun and engaging manner. We suggest running the class as follows:

- Stations 1, 2, 3 and 4 are **Game Stations**. At these stations the children play in pairs or play the games independently with supervision from the coach
- Children should rotate around the station and have approximately **5 minutes** to spend at each station. Each child should get an opportunity at each station during the class
- At the end of the session, the children can play one of the games as a group to add a social element to the class
- Safety is your top priority when running your class, please remember to;
 - Add your orange safety cones behind each station to identify to the children where they are required to stand when not hitting from within the hitting station
 - Dividers should be used to identify to hitting stations
 - Baskets should be placed to right to the side of the children and behind the hitting area
 - Children should never go in front of the hitting stations to collect a golf ball or golf club
 - Children should always exit the hitting stations from the rear by crossing the orange safety cones
 - Children should collect the golf balls in a group with all equipment left at the stations
