Swing Challenges Layout and Set Up

The graphic below provides an example of how each of the challenges connect together when laid out on your driving range:

Please find below a list of the equipment you require for these challenges:

12 x Alignment Sticks and Foam Noodles

Colored Cones

Swing Plane

Equipment Needed

- Alignment Stick
- Foam Noodle
- 7 iron and hybrid
- Golf balls

How to Practice

- Following on from previous weeks, learning about posture in the golf swing, the learners will benefit from learning about shoulder plane
- The learner should use the alignment stick by placing it across their shoulders, getting into posture and rotating so that the point of the alignment stick points roughly towards the ball
- Another alignment stick and noodle can be placed at an angle along the ball to target line so that when the learner is swinging they can practice with the visual and physical guide in place

Technical Link

- This activity will help the learner to strike the ball more consistently and improve their swing path

Army Golf Challenge

Equipment Needed

- Alignment Stick
- Foam Noodle

How to Play

- The learner addresses the ball in the same way each time, aided by the alignment stick which points directly at the foam noodle
- The learner should then attempt to hit the ball alternately left of the noodle, and then right of the noodle by changing the direction of the swing and the path of the club head
- The learner should try to build an awareness of how they control the club by swinging it in different directions

Progression Ideas

- Challenge the learner to deliberately hit the ball left, then right then dead straight to hit the noodle
- If the learner struggles with one direction more than the other encourage them to practice that one more

Learning the Game

This is an elaboration of the content covered in the Themed Class this week. Be clear that you are covering this so that anyone who missed the themed class is able to receive the content. Add to the content delivered in the themed class and provide further information on the following areas:

Par 3, 4 and 5

Introduce learners to the different pars they will find on the course and what they mean. Be sure to reference the course play events where they will be playing holes with pars relative to their current ability.

Birdie, Par and Bogey

Introduce these key golfing terms and explain what they mean to you learners. Use this language moving forward so that your learners get used to the terminology they will hear when playing the game.

The Whole Golfer

This is an elaboration of the content covered in the Themed Class this week. Be clear that you are covering this so that anyone who missed the themed class is able to receive the content.

Add to the content delivered in the themed class and provide further information on the following areas:

Greetings - How to start and end a round of golf

Introduce learners to the etiquette of shaking hands at the end of a round of golf. The well wishing at the start of a round and thanking your playing partners for the game at the end of a round is all part of what makes the game of golf.

When your learners start to play with more and more people they will be expected to know these things, so introducing them to this now is a great way to make sure they feel comfortable when playing with other people.

Secondary Skill

To allow for variety of practice during the session, and to enable those that may have missed a class to catch up on practicing some of the other skills we recommend having one of the stations set up as a secondary skill.

This week's secondary skill is pitching, providing learners an opportunity to practice what was learnt in their pitching class.
