Class Objectives

Technical Guidance

The technical guidance we are prescribing is to be delivered as you see fit, use your experience to deliver this information appropriately:

1. Control trajectory

When considering trajectory of the chip shot, ball position will affect the trajectory as well as the club selection. To generate a lower trajectory move the ball position back in the stance or change club to a less lofted iron. The reverse will increase trajectory.

2. Controlling roll

Explain to learners how the higher or lower trajectory will increase or decrease the roll of the ball when it lands. Considering a landing spot therefore becomes very important when choosing which trajectory chip shot that is required.

Learning the Game

Provide a brief overview of the learning the game theme and remind learners that they can access the content online to review and learn more about this topic:

What is a pitch mark?

Make sure learners understand what a pitch mark is and the importance of repairing it in order to preserve the quality of the putting surface and how it will be considerate to other golfers. Explain about how to use the pitchfork repairer.

The Whole Golfer

Explain to the learner the importance of considering other players on the golf course.

Becoming a respectful golfer...

Explain to the learner the importance of reciprocal respect when on the golf course.

When it is your playing partner's turn to hit a shot It is courteous to be quiet, so that they can concentrate on their shot. Golf is a very sociable sport but there are times when quiet is required and traditionally

Class Layout and Setup

Practice Stations and Game Cards

Themed Class Plans

Control Distance

30 Yards

20 Yards

10 Yards

About
The Practice Station Activity has been built to provide an engaging practice element to your class and serve as a themed class focus.

Equipment Needed

- 12 cones
- Golf balls

How to Practice

- Set this activity up in 3 different sized boxes (10, 20 yards and 30 yards) from the learner.
- The learner should practice chipping the ball at different distances using the same club, by varying the speed of the swing.
- Encourage them to start by controlling the length of the stroke, similarly to how they learnt to control the ball further, and then gradually increase the length of the stroke and speed of the stroke to ball further.
- This practice is learnt using the same club as a lower lofted club. e.g. a 7 iron would be best to

Technical Learning Objectives

- This activity will help the learner to understand the distance of a shot based on the speed of the stroke.
- This activity will help the learner to gain consistency in chipping around the green by becoming confident in using one particular type of club.

GAMEON
GOLF DEVELOPMENT

Land and Roll

Equipment Needed

- 7 Cones
- Pitching Wedge or Sand Wedge
- Golf balls

How to Practice

- The landing circle marked out in yellow cones is the target the learner is trying to land the ball in
- Learner should stand sideways on and using right or left hand throw the ball into the air trying to land the ball in the circle
- Maintain the same speed of arm action and try and develop some consistent landing. To see how the trajectory affects the amount of roll throw the ball higher or lower
- Once the learner has achieved the ideal flight and roll by throwing the ball they should try to replicate the flight using a golf club

Technical Link

- This activity is designed to help the learner to understand about length of arm action versus where the ball lands
- It is used to mimic the action of chipping and controlling the trajectory of the flight and where the ball lands
- It will also show the learner that varying trajectory will increase or decrease the roll

Landing Circle

Equipment Needed

- 7 Cones
- Pitching Wedge or Sand Wedge
- Golf balls

How to Practice

- The landing circle marked out in yellow cones is the target the learner is trying to land the ball in.
- Using the correct set up, swing in a pendulum action and chip the ball and try and land in the circle.
- Adjust the length of back swing and follow through to adjust the distance the ball flies through the air.

Technical Link

- This activity will help the learner to get a feel for which length swing produces which length of shot.
- Encourage the learner to visualise the ball lifting into the air and landing in the circle.
- This activity is designed to focus the learner on where the ball is landing as opposed to where it will finish. If the correct landing spot is chosen the result will take care of itself.

Hurdles

Equipment Needed

- Alignment sticks and a noodle to create the hurdles
- Golf balls
- 7 Cones to create target

How to Play

- Place the hurdles 5 feet ahead of the learner
- Aim is to chip the ball over the crossbar and land in the appropriate place for the ball roll into the circle
- The learner receives 10 attempts to chip the ball over the hurdle with 2 different clubs over 2 different hurdle heights
- 5 shots with a 8 iron with 30% through the air and 70% rolling
- 5 shots with a SW with 70% through the air and 30% rolling

Progression Ideas

- Vary the height of the noodle
- Vary the position of the target circle

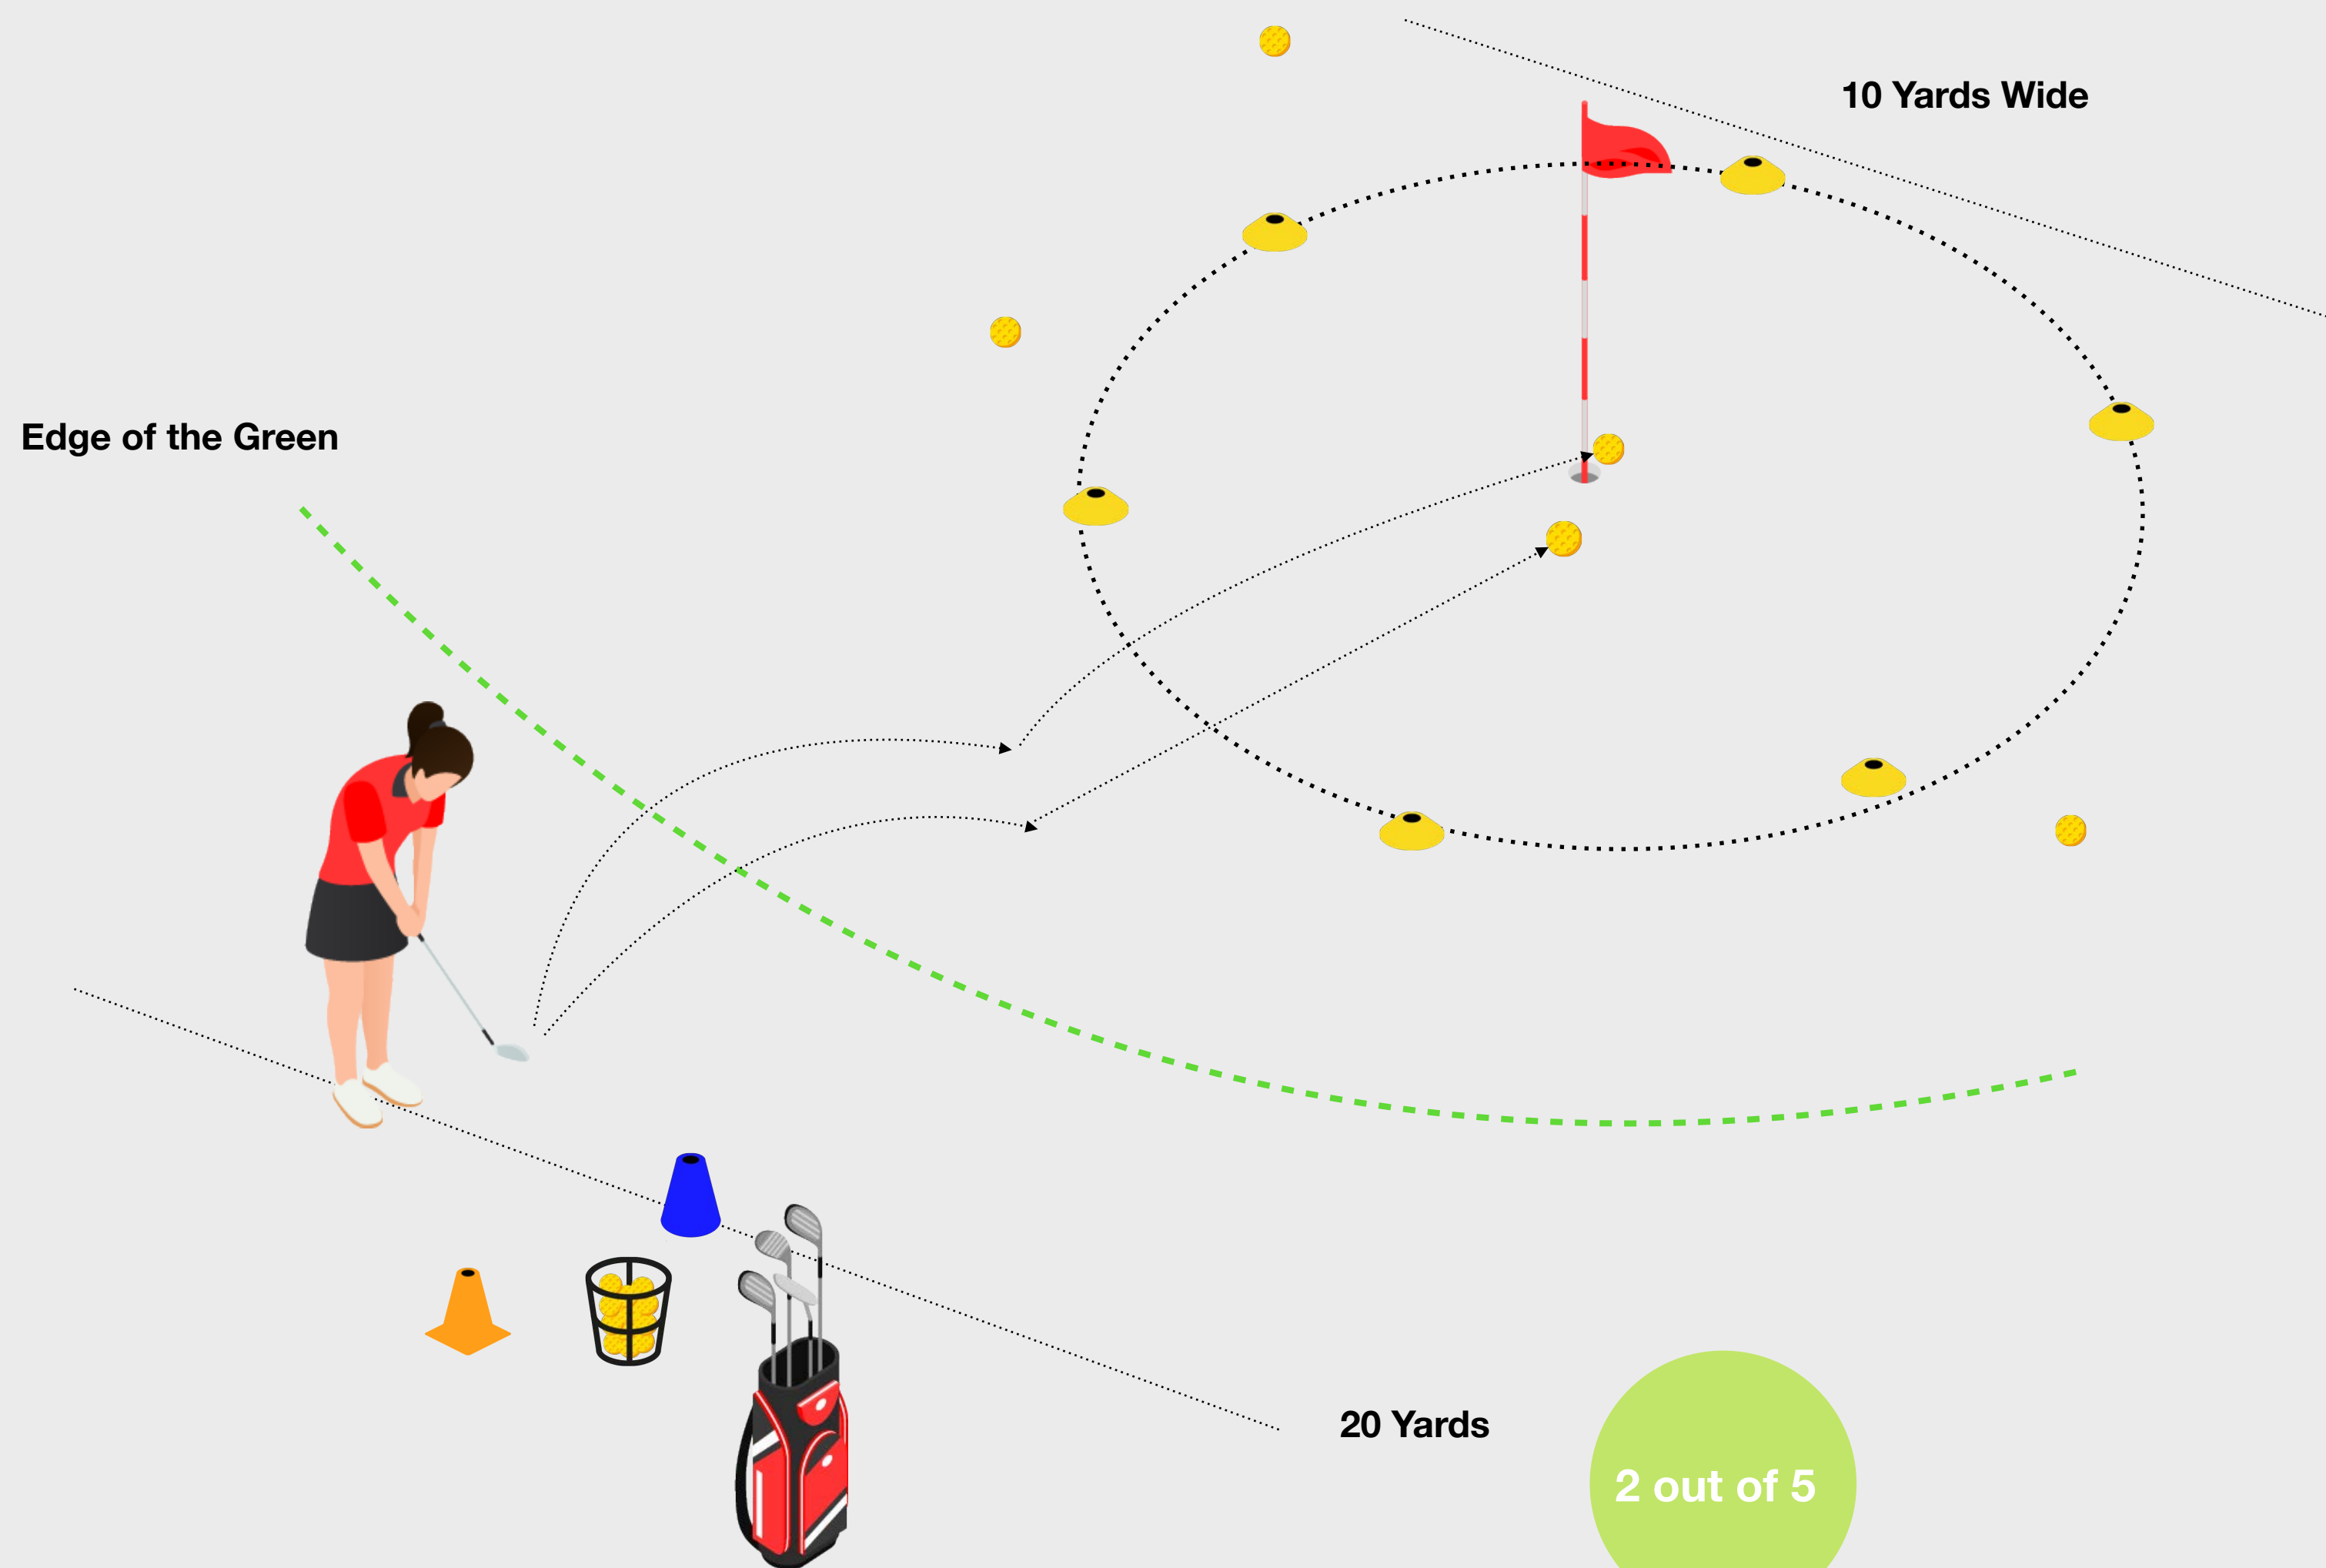

Secondary Skill

To allow for variety of practice during the session, and to enable those that may have missed a class to catch up on practicing some of the other skills we recommend having one of the stations set up as a secondary skill.

This week's secondary skill is swing, providing learners an opportunity to practice their swing and specifically shots with the driver.

Chipping Challenge

The Challenge

To complete the Level 1 Challenge the learner needs 2 out of 5 shots to finish anywhere in the circle from a starting position 20 yards from the hole.

The circle should be 10 yards wide.

Equipment you Need

The equipment you will need for this challenge:

- Cone to mark the starting position.
- Cone to mark the target circle.
- Golf Balls.

What should the Learner do next?

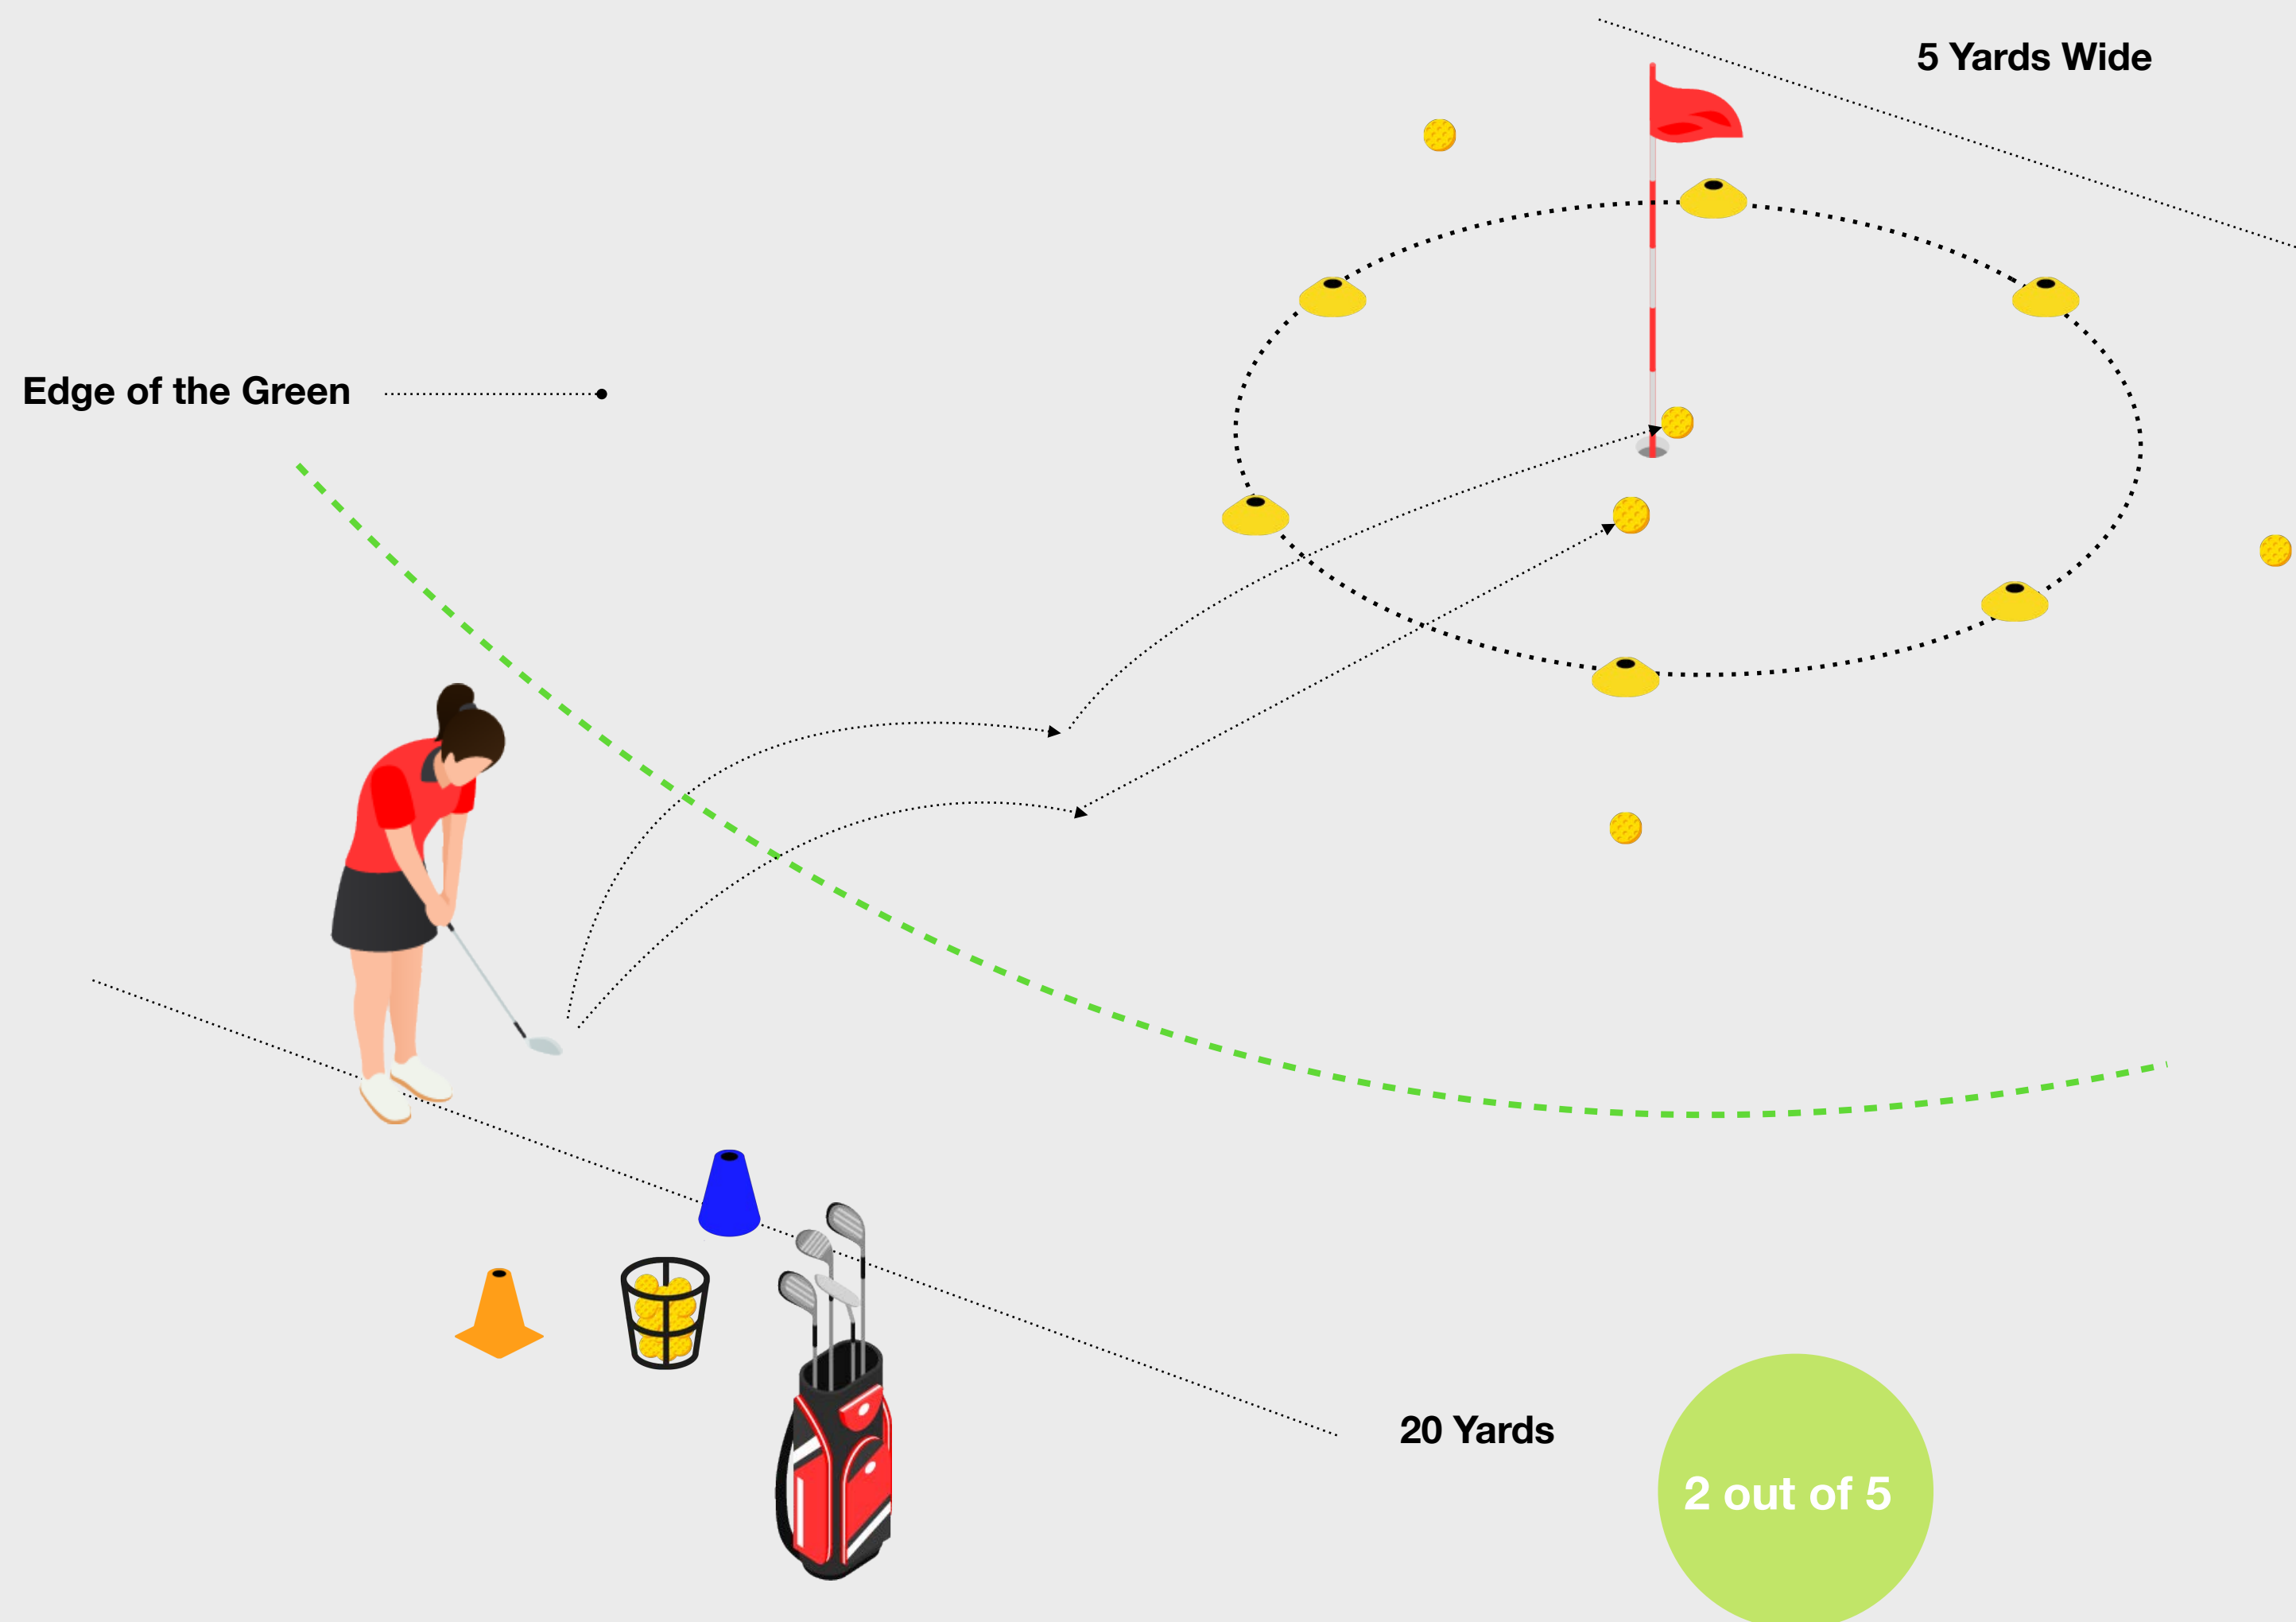

After attempting the challenge, the learner should:

- Log in to the GLF.Connect App
- If they complete the challenge, mark it as complete in the Challenge Section

Chipping

Chipping Challenge

The Challenge

To complete the Level 1 Challenge the learner needs 2 out of 5 shots to finish anywhere in the circle from a starting position 20 yards from the hole.

The circle should be 5 yards wide.

Equipment you Need

The equipment you will need for this challenge:

- Cone to mark the starting position
- Cone to mark the target circle
- Golf Balls

What should the Learner do next?

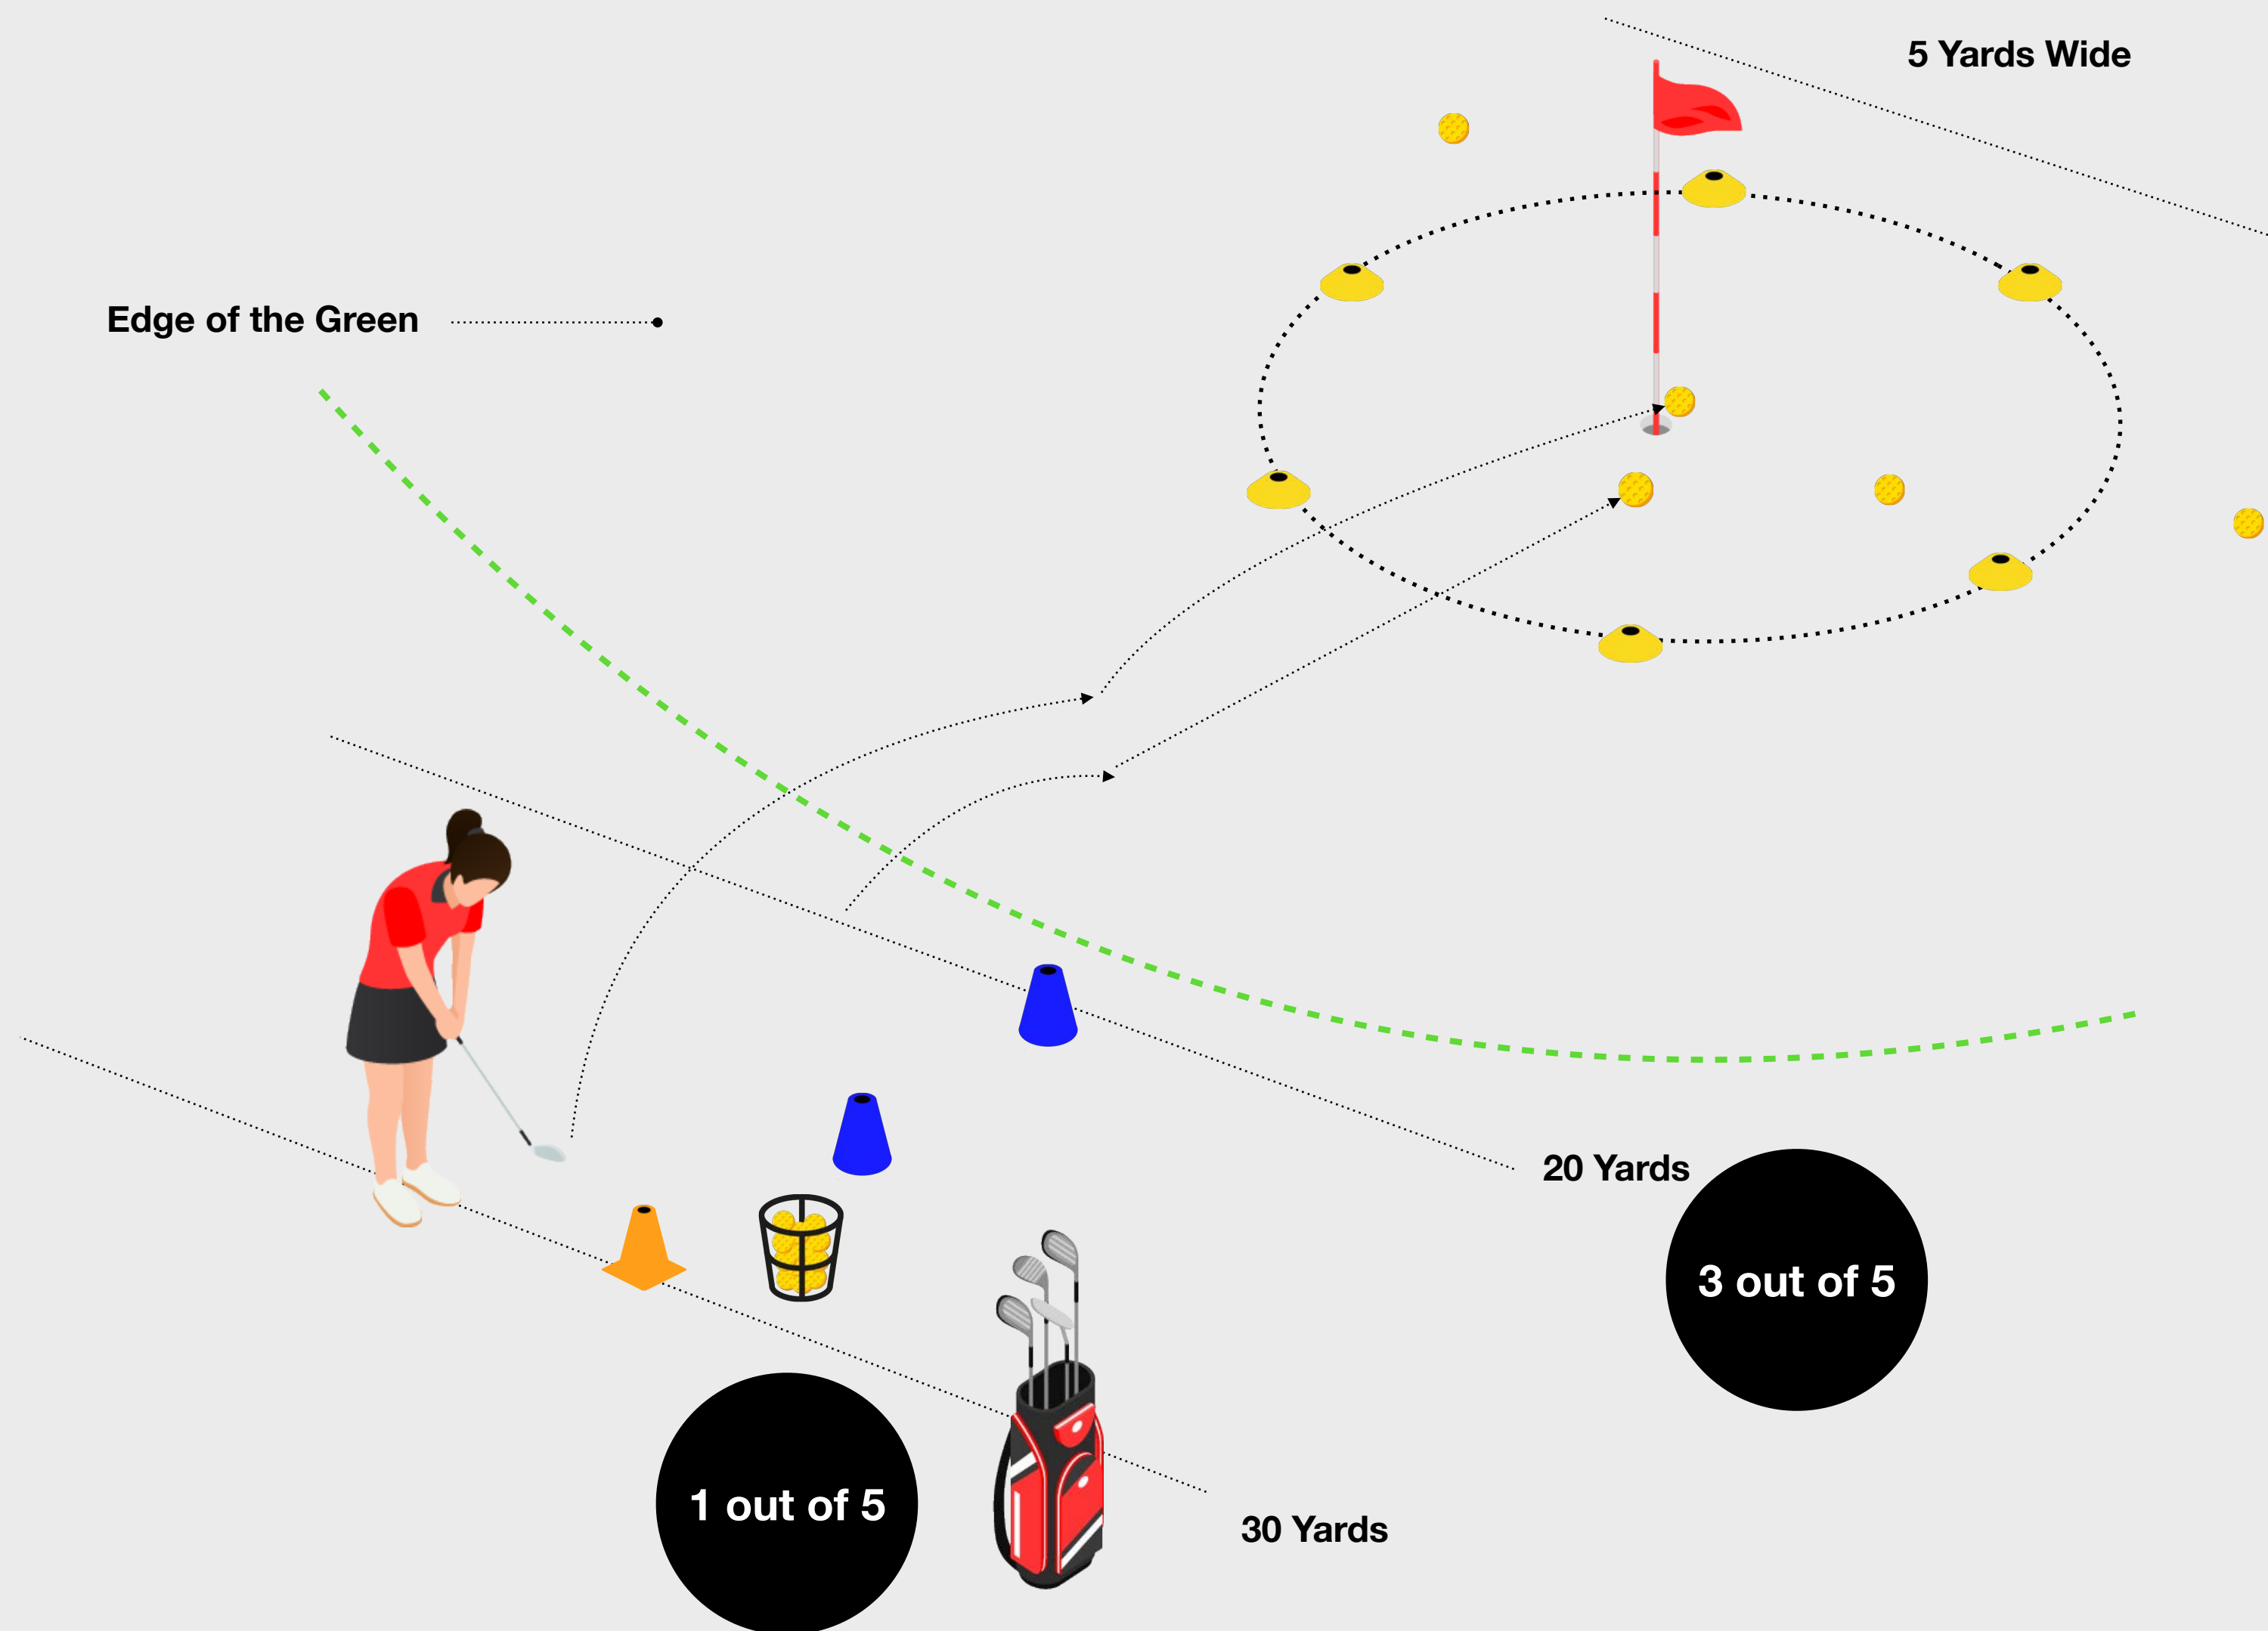

After attempting the challenge, the learner should:

- Log in to the GLF.Connect App
- If they complete the challenge, mark it as complete in the Challenge Section

Chipping

Chipping Challenge

The Challenge

To complete the Level 3 Challenge the learner needs to hit 3 out of 5 shots from 20 yards and 1 out of 5 shots from 30 yards to within a 5-yard circle.

Equipment you Need

The equipment you will need for this challenge:

- Cones to mark the starting positions
- Cones to mark the perimeter of the 5-yard target circle
- Golf Balls

What should the Learner do next?

After attempting the challenge, the learner should:

- Log in to the GLF.Connect App
- If they complete the challenge, mark it as complete in the Challenge Section
