Speed Swinger

Equipment Needed

- Driver

How to Practice

- The learner should practice swinging at speed in order to maximise the potential distance they can hit the ball
- If the learner is able to generate more speed they will increase their potential for distance
- The focus here is just on generating speed, learners should not worry about making perfect contact

Technical Link

- This activity will help the learner to understand the importance of generating speed to hit the ball further

Face Contact Challenge

Equipment Needed

- Impact Tape
- Driver

How to Play

- A learner starts by attempting to strike the ball using a club that has impact tape on the face
- After each shot they should check to see where the ball was struck on the face
- The learner should try to deliberately strike the ball using the toe of the club and the heel of the club to build awareness of what it feels like when the ball is struck using different parts of the club face

Progression Ideas

- Challenge the learner to strike a particular part of the club face deliberately
- Draw on the face tape to indicate a smaller target that the learner has to try to hit

Rules and Etiquette - Where to leave your bag

Make sure learners understand where to leave their bag as they approach the green, so that once the hole is completed they can collect their bag and move the next hole without holding up the group behind them.

This logic applies for carrying a bag, or driving a cart, and is a habit that the learners should adopt early on to improve the experience for everyone on the course.

In Swing Thoughts

Highlight to learners that as they are starting out they will have many thoughts running through their heads. Tips they have heard from you, other learners, and more experienced golfers.

Provide some reassurance to learners that they are not expected to remember all the tips provided to them, in fact it is more preferable to think about just one or two things whilst practicing and playing until they become automatic.

Learners should understand why a poor shot has happened, but not have to think of a new thought each swing in order to fix it!

Secondary Skill

To allow for variety of practice during the session, and to enable those that may have missed a class to catch up on practicing some of the other skills we recommend having one of the stations set up as a secondary skill.

This week's secondary skill is bunker play, providing learners an opportunity to practice what was learnt in their around the green class this week.
