MEASURING PROGRESS

Critical to the program is the ability for you and your coach to measure your progress. This will help you engage in the program, and pinpoint where you are on your journey. To align to the Step Themed Classes, a 3-step progression pathway has been developed across two progress areas:

Steps to Mastering the Game

This three step pathway includes a number of skills based challenges you can complete in program classes, externally with others, or on your own. There are 26, fun skill based challenges across the four Mastering the Game Skills.

Steps to Club & Course Ready

This three step pathway has been designed to guide your journey to become a Club and Course Ready Golfer. It will help you identify where you are on your journey and provide you with the tools you need to become a golfer for life.
